

mineral oxide colouring pigments 52 COLOURS

ARCHITECTS & LANDSCAPE ARCHITECTS

With our sample disks of coloured concrete called 'biscuits' - shown here actual size - you can show your clients the colours attainable in building and other materials with 'abilox[®]' colouring pigment powders - effectively and readily.

You may specify 'abilox[®]' UV resistant colourants for effective through-coloured concrete pavements, floors, steps, patios, paths and driveways as well as rendering and masonry mortars, all concrete bricks, blocks, pavers, roofing tiles, pre-cast concrete components, other concrete products, asphalt paving, artistic and many other materials.

Contact us at Ability now to arrange for delivery of your free colour range of sample 'biscuits' shown in the illustration and printed information to assist in completing specifications.

Why not visit us or call Anna, Dorothy, Bea, Peter or Michael to discuss your needs and how we may best help you?
